

Beacon

Crosswalk System

Description

The **Beacon Crosswalk System** combines industry-leading durability and brightness with the Spot Devices **System Infrastructure Management Applications (SIMA)** suite, a set of secure Web-based tools for remote, enterprise-wide supervision of all Spot Devices systems.

Operation

Installed on roadside poles and mast arms, the **Beacon Crosswalk System** remains dark until a pedestrian activates the system. Once the system is activated, the flashing amber beacons provide a bright warning to motorists.

Highlights

- ▶ Optional audible announcements assist sight-impaired pedestrians
- ▶ High-efficiency, bright LED balls
- ▶ Local cross-street communication eliminates the need for trenching in the street
- ▶ Pole-mount controller simplifies installation
- ▶ SIMA-enabled (see back)
- ▶ AC or solar power
- ▶ 2 year warranty

System Components

- ▶ SC315 or SC320 controller
- ▶ Standard beacon head
- ▶ Crosswalk signage

Applications

- ▶ Crosswalks
- ▶ Advance Warning

SIMA - The Spot Difference

The Web-based suite of System Infrastructure Management Applications (SIMA), allows for remote management of one to thousands of systems. SIMA provides automatic, real-time diagnostics; proactive e-mail alerts; and a GPS-based map that shows vehicle locations in real time.

SIMA is accessed via a secure Web site. Authorized users may gain access from virtually any browser-enabled device, without the need for installing client-side software.
