

# Rectangular Rapid Flashing Beacon Pedestrian Safety System

## Description

The **Rectangular Rapid Flashing Beacon (RRFB) System** combines industry-leading durability and brightness with the Spot Devices **System Infrastructure Management Applications (SIMA)** suite, a set of secure Web-based tools for remote, enterprise-wide supervision of all Spot Devices systems.

## Operation

Installed on roadside poles, the **RRFB** remains dark until a pedestrian activates the system by pressing a pushbutton. Once the system is activated, rapidly flashing amber beacon lights provide a bright warning to motorists. The system also provides an additional flashing amber light which indicates to the pedestrian the system is active.

## Highlights

- ▶ Optional audible announcements assist sight-impaired pedestrians
- ▶ High-efficiency, bright, rectangular LED indicators
- ▶ Local cross-street communication eliminates the need for trenching in the street
- ▶ Pole-mount controller simplifies installation
- ▶ SIMA-enabled (see back)
- ▶ AC or solar power
- ▶ 2 year warranty

## System Components

- ▶ SC315 or SC320 controllers
- ▶ SB430 Rectangular Rapid Flashing Beacon
- ▶ Crosswalk signage
- ▶ Pushbuttons or microwave detectors
- ▶ Optional additional lighted peripherals

## Applications

- ▶ Crosswalks

## SIMA - The Spot Difference

The Web-based suite of System Infrastructure Management Applications (SIMA), allows for remote management of one to thousands of systems. SIMA provides automatic, real-time diagnostics; proactive e-mail alerts; and a GPS-based map that shows vehicle locations in real time.

SIMA is accessed via a secure Web site. Authorized users may gain access from virtually any browser-enabled device, without the need for installing client-side software.
