

School Zone Flashing Beacon Safety System

Description

The **School Zone Flashing Beacon System** provides a bright warning to motorists to be alert for schoolchildren entering the roadway inside the school zone. These systems feature the Spot Devices **System Infrastructure Management Applications (SIMA)** suite, a set of secure Web-based tools for remote, enterprise-wide supervision of all Spot Devices systems.

Operation

Located at the boundaries of school zones, these attention-getting beacons automatically activate according to a calendar schedule. In addition to regularly scheduled activation periods, the beacons can be remotely activated at any time by authorized users via **SIMA**.

Highlights

- ▶ Visual, calendar-based user interface makes it easy to schedule activations with SIMA
- ▶ Multi-year scheduling for one to thousands of beacon systems can be done from virtually any browser-equipped device
- ▶ Automatic real-time diagnostics and reporting ease maintenance burden and reduce cost of ownership
- ▶ Wireless cross-street communication eliminates the need for trenching in the street
- ▶ Pole-mount controller simplifies installation
- ▶ SIMA-enabled (see back)
- ▶ AC or solar powered
- ▶ 2 year warranty

System Components

- ▶ SC315 or SC320 Controllers
- ▶ SB410 Round Beacon
- ▶ School zone signage

SIMA - The Spot Difference

The Web-based suite of System Infrastructure Management Applications (SIMA), allows for remote management of one to thousands of systems. SIMA provides automatic, real-time diagnostics; proactive e-mail alerts; and a GPS-based map that shows vehicle locations in real time.

SIMA is accessed via a secure Web site. Authorized users may gain access from virtually any browser-enabled device, without the need for installing client-side software.
